Crowner's Quest Queries.

Some of those who are honored by being our cotemporaries have been making some rather severe remarks upon the sort of questioning in which divers attorneys (begging the world's pardon for using such a word during the holidays, when peace and happiness should prevail) indulge themselves and earn their pay before a coronor's jury. Our cotemporaries allege that some of these persons ask questions of a ridiculous character, and are evidently bent upon getting a reputation for keenness and perseverance, rather than eliciting truth. Mr. Punch, who defends the attorneys upon all occasions, is grieved to read such charges, and declares them to be wholly unfounded. If attorneys go in the following kind of way for instance, it is arrogance in the non-professional mind to suppose that the legal mind has not subtle intent, and to doubt that it is plunging headlong into the well at the bottom of which truth is known to lie:

Owley Shunter examined—Is a pointsman; is 29 years of age; was born in Hertfordshire.

Mr. Squiggles—Why do you wear a velvet coat?

Witness—To keep me warm, Sir.

Mr. S.—I appeal to the Court against the insolence of this hireling.

Coroner—Well, I don't see the insolence. Would you have him say he wears it to keep himself cold?

Mr. S.—If you, Sir, take part with a recalcitrant witness you shall hear of it in the Queen's Bench.

Coroner—Go on, Mr. Squiggles.

Mr. S.—I will not be dictated to, Sir, in the conduct of my case.

Mr. Squiggles—Nobody dictates to my friend, and if they did I don't suppose he could write from dictation.

Mr. Squiggles—Hold your tongue. Witness, you said you were born in Hertfordshire. Now, be careful. How do you know that?

Witness—Mother always told me so, Sir.

Mr. S.—We don't want to know what your mother told you. If she had told you your duty you would have been here. Why were you born in Hertfordshire?

Witness—I really don't know, Sir.

Mr. S.—I dare say not; it is of a piece with the rest of your ignorance. Now, your business is to attend to railway trains. Who invented railways?

Witness—Can't say, Sir. He were a cleverer man nor you and I.

Mr. S.—Speak for yourself, Sir, if you please. What is your opinion as to gauges?

Witness—Well, Sir, if they are ripe I like 'em, but they have been scarce this year, likewise plums.

At this point the inquiry was adjourned for the 23d time.—Punch.

COMPENSATION FOR ACCIDENTS IN ENGLAND.—MAKING USE OF ONE'S OWN FLESH AND BLOOD.—The Field, an English sporting journal, tells the following anecdote.

A short time ago there was a story current in Lancashire, which will serve to illustrate the "morals" of some of the actions against the companies. A man well-known in the country for his shrewdness in business—a virtue which sometimes tends very closely upon the breach of the Eighth Commandment—happened to be traveling on a train, accompanied by his wife when a collision occurred. His wife received a severe contusion between the eyes, for which the jury awarded £50 damages. Some time after the affair had blown over, the following confession, or something to the like effect, was elicited from the plaintiff in a moment of unguarded conviviality:

"Wall, ye see, when t' collision happened t' old woman and I war all at rest; but when looked out o' t' carriage I saw a bit o' feilies in a terrible state. One sings out, Ey, lad! I've gotten my head out open; I'll ha' twenty pownd for't. Twenty pownd, ye darned fool, cries another, I've gotten my shoulder out, and I'll ha' forty pownds for't. When I heard this" (continued this clever business man,) "I jumped at t' old woman straight out, and drove my head right between her eyes—and we've gotten fifty pownds for it."

LEATHER OF HUMAN SKIN.—The editor of the San Joaquin Republican was shown, a day or two since, what he was assured was the skin of a human being, which had been tanned into a sort of leather. He says:

It is about one eighth of an inch thick, and resembles hog skin. It seems to be a very good article of leather, but under what circumstances it was obtained, or who brought it to this country, we cannot say. It is said that during the Indian wars, the whites sometimes skinned the Indian's backs to get material for razor-straps.

ABOUT COURTSHIP.—We clip the following racy bit of advice to girls from a late Eastern paper. The writer professes to be a widow who has outlived three husbands, and therefore ought to know something about the subject on which she descants:

About accepted sweethearts, girls, and how to treat them. Ah! there, now, I have the advantage of you. I have been through the pleasure grounds of courtship and the thorny thicket of matrimony three times, and if I have lost some of my roses on the route, I have gathered a good many of those tough specimens of moral botany known as experiences. If you think these credentials give me a claim to your confidence, take my advice. You will find it sound, honest, and practical. In the first place, never give your declared sweetheart's reason to believe that you are over head and ears in love with them. It won't do, girls. The male of the human species generally requires to be kept on the qui vive. No matter how much you love him, play him like a trout; for, however much he may be in love with you, it is an even chance that you lose him, if you don't. Men are afraid of women who are too fond, be sure of that. Afraid of them as wives, I mean.

Don't let your lover come to see you too often, young lady. Make your presence a treat to him, to be contemplated in advance with the same rapture that Mahomet said he experienced in his dreams about the hours of paradise. That favors easily obtained are soon at a discount, is a proverb as old as the hills, and as flat as ditch water, but, nevertheless, is as true as gospel. Therefore, be chary of that pretty mouth of yours, Miss Sweetlips. You understand me. Though your teeth were whiter than the whitest water-lily and your breath more fragrant than Oriental oil of roses, custom would steal the beauty of the one and the perfume of the other. Keep your lips to yourself, fair lady, until you make them over too simple at the altar. And don't be sentimental. That style is "played out." The men have been Rose-Matilda'd to death. The high-flown and extra-poetic are drugs, and there is no demand for them in Cupid's market. If you have a leaning toward the lofty and the emotional, career the other way and lean downward, like the lower of Pisa. Depend upon it, the "high-horse" sentiment is a bad nag for the matrimonial course.

HOLLOWAY'S OINTMENT AND PILLS.—Palpitation—Shortness of Breath—Dropsy. This last-named disease is commonly preceded by irregular action of the heart, and difficult respiration: which symptoms are always severe, and even go from bad to worse, unless proper means of cure are resorted to. In Holloway's universal Ointment and Pills the dropsical patient will ever find succor; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of this noble Ointment, invariably results in a lasting and a satisfactory cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

FROM REV. HENRY WARD BEECHER, N. Y.—"Brown's Bronchial Troches." It is five years since that I accidentally entered your store for some sort of a preparation for Hoarseness—the Troches which you gave me entirely answered the purpose which I had in view. Since then in all my lecturing tours I put "Troches" in my carpet-bag as regularly as I do lectures or linen, and I have never changed my mind respecting them from the first, except to think yet better of that which I began in thinking well of."

THE BRITISH COLONIST

TO ADVERTISERS.

All advertisements, unless the time for which they are to be inserted is specified, will be continued until ordered out, and so charged.

Monday Morning, Nov. 18, 1861.

Emigration—Lecturer for Vancouver Island and British Columbia.

The various methods at present engaging the attention of our Executive, Legislature and prominent citizens for the material advancement of these Colonies, indicate vigorous life in the community and encourage the hope of vast and rapid progress. Within a brief period we have successfully inaugurated an Agricultural and a Horticultural Association and a Literary Institute. We now seek—though the latest-born and feeblest of British Colonies—to emulate the zeal of older dependencies, in sending specimens of our vegetable and mineral wealth to the contemplated Industrial Exhibition of 1861. The patriotism and talent in our midst have been recently appealed to by the offering of premiums for Essays that shall set forth a description of our varied resources and geographical relations in a manner best adapted to promote the immigration of capital and labor. These and other local movements plainly evince our faith in the great destiny in store for this country. But there is one measure which we have as yet failed to call into operation—one, nevertheless, that in our opinion, above all others, merits consideration, as likely to be most effective in supplying elements indispensable to the immediate development of our undiscovered and untold treasures. We refer to the appointment of one or more respectable and efficient agents, whose entire energies shall be devoted, for a stated time, to the diffusing of suitable information as to our "England of the Pacific" and the neighboring colony, throughout Canada, the Lower North American Provinces, and the British Isles. Colonists who have visited the mother country or her possessions on the Atlantic within the last three years, must have felt humiliated at the remarkable ignorance that prevails respecting this part of the world, notwithstanding the newspaper articles and other publications which have appeared on the subject. Even to multitudes of our countrymen in Europe, who read the London Times, this promising land of our adoption is a terra incognita. Nor is it certain that the Prize Essay, shortly to be adjudged and published, or the collection of specimens to be displayed at the forthcoming World's Fair, will suffice to meet the necessities of the case. Those acquainted with prize literature in general, are obliged to confess that however meritorious, according to the canons of taste, it is rarely, if ever, popular. It is but few among the tens of thousands who may inspect the bewildering crowd of objects to be exhibited in the Industrial Palace, that can be expected to bestow more than a cursory glance upon such physical productions as we send at this early and crude stage of our growth. Besides, most visitors will probably frequent that gigantic aggregate of curiosities in a holiday mood, and if a Prize Essay, treating of our colonies be placed in their hands, it should not be forgotten that it will only be one of countless such documents about different sections of the globe that will be thrust upon their notice—in most instances, to be laid aside by them as dry and uninteresting compared with the dazzling accumulation of objects in the Exhibition. Others in England and elsewhere may take up the Essay in a more inquiring state of mind. But for one wishing to become acquainted with the statistics of British Columbia and Vancouver Island, who will hear of the Essay or read it, hundreds will remain unenlightened and indifferent, who could only be effectually reached by an intelligent lecturer, paid by the citizens of both colonies, to devote his time and thought to the work of spreading the facts that ought to be made known. Many capitalists and laborers at a distance are desirous of knowing something reliable and definite about the new El Dorado, who are careless as to procuring books in reference to the country or have not patience enough to read them. The presence of an impressive lecturer and a *visu voce* statement of the inducements to emigration and investment must, therefore, have immense advantages over cold printed matter. The gentleman who may be chosen for the proposed undertaking would be on the spot to answer questions, and would be enabled to bring such influence to bear upon all classes in the countries we have named, as must issue in results abundantly compensating for the toil and money expended.

The public can remember the extensively beneficial consequences that followed the exertions of the Rev. Dr. Lang, of Sidney, previous to the discovery of gold in Australia, and of Mr. Chisholm and others since that event. The new Colony of Queensland has for some time been represented at home by such an agent as we suggest in behalf of our interests. New South Wales has sent, at considerable expense, two gentlemen to England in a similar capacity. The Colonies of Victoria and New Zealand are certain to follow suit. Shall this young country—in many respects the most hopeful and interesting of all our Colonial possessions—continue any longer remiss as to a scheme so manifestly adapted, beyond all other schemes, to further its well-being. Now is

the time for action. Why should not a public meeting be called by all classes of our citizens without delay, to take the sense of the community and arrange for a deputation to consult with the Executive on the question? £1000 would amply meet the salary and incidental expenses of a lecturer for, at least, a year and a half. That amount contributed by landholders, farmers, merchants and miners from the revenue of both Colonies, would soon be returned a hundred-fold by the increase of capital and population and the consequent improved trade, enhanced value of land, and augmentation of the revenue. When our agent, or agents, had gained a footing in England and the Provinces, there would be no question of a continuous tide of immigration setting hither, and of a permanent character too.

Our revenue may be inadequate at the present moment to promote anything like an assisted immigration, even were it deemed good policy. Ultimately, however, through connections with Emigration Commissioners in Great Britain, we would be able to partially assist laborers and artisans and unmarried females, on condition of repayment. At the outset, our lecturers would be the means of sending hither a British population drawn from the middling classes—educated, trained to habits of self-dependence, and with means sufficient to serve their immediate wants. They would be the very best class from which to found an intelligent and industrious Colony and build up free institutions on this coast. In due time they would make the introduction of lower class immigrants a necessity; and with an Emigrant Agent abroad and a local Emigration Agent or Society here, that necessity already felt would be supplied.

Election Over.

The election for Victoria District is over, and Trimble and Trutch were returned. But because they are returned, that is no proof that they are both legally elected. We have not the most remote idea that Trutch is elected. On the contrary, the law is clearly against him. Not a vote cast for him can be counted in his favor by the decisions of the Imperial Parliament; and by the local Act "his election is null and void." Francis is, consequently, as much a member of the Legislature as the Attorney-General. Were it necessary, we might multiply authority upon authority in proof. It remains to be seen whether he will be allowed to take his seat, or whether he will demand his right. So far as the people at large are concerned, they also have to see that Mr. Trutch does not hold his seat illegally. At the polls, a certain distinguished official said he "would do anything to keep Young from getting a majority over Francis; for Young would bother them with election-petitions; but they could easily get over Francis." Of course he ought to know, having got over him and others of his "class" at the general election. Francis is certainly not a candidate of our choosing, or one whom we would support; and up to the time of nomination we believed it was an understood thing that he would withdraw. Now that the election is over, both as a matter of history and of law, we assert that he is legally elected. We are told everything will be done to deprive him of his right. *Nous verrons.*

NEW ADVERTISEMENTS.

EXECUTORS' SALE.

TO BE SOLD, PURSUANT TO AN
order of the Supreme Court of Civil Justice, Vancouver Island, made in a cause of Edward Green and John Sebastian Helmcken against Elizabeth Miles and others, by

P. M. BACKUS, Auctioneer

On Tuesday, Nov. 27th, 1861,

At 12 o'clock, M.,

AT SALESROOM,

No. 6, Commercial Row, Wharf Street,

The following, late the property of John Miles, deceased:

Two Five-Acre Lots, Nos. XVI

and XVII.

These 10 acres extend from Mr. Thorne's property, on Cook street, to the corner of the

"SPRINGS."

They are the most beautiful of all the Victoria Suburban Lots, and on this account and for the richness of the soil, were selected by the late proprietor, before the gold excitement.

—ALSO—

215 acres of Land, in North Saanich,

consisting of Sections, 11W 21N, 11W 22N, and 11W 23N, admirably adapted for Stock raising, the Soil being equal to the best Saanich property.

One instalment has been paid on the Saanich property, and another is now due.

Further particulars may be had at the Office of the Auctioneer, or of Mr. Edward Green, at Messrs. Saml. Price & Co.

CONDITIONS OF SALE.

The highest bidder shall be the purchaser, and if any dispute shall arise as to the highest bidding, the Lot shall be put up again at the last undisputed bidding.

The purchaser shall, at the time of sale, pay to the auctioneer 25 per cent on the amounts of his purchase money, and sign an agreement for completing the purchase and payment of the remainder of the money within 10 days.

Purchasers to bear the expense of the conveyance.

Storage, \$1 per ton per month; Wharfage, 25 cents per ton.

HARRIS & CO.

Monday Morning, Nov. 18, 1861.

Victoria District Election.

The election for two members to represent this District in the House of Assembly was held at the Colonial School-house on Saturday last. The poll was opened at 9, a. m., and closed at 4, p. m. The friends of each candidate were actively engaged during the day in working for their favorite, but before the polls had been open an hour, it was plain to be seen that Messrs. Trimble and Trutch would be triumphantly returned. At the close of the poll, the vote was announced as follows:

Trimble,38
Trutch,36
Francis, (colored),11
Young,4

The returning officer then declared Dr. Trimble and Mr. Trutch as duly elected, amid vociferous cheering on the part of the electors present. On the day of nomination a protest was served on the Sheriff against the return of Mr. Trutch, on the ground that he was not present to take an oath prescribed by the local law; but before the close of the poll the protest was withdrawn, and the friends of Mr. Trutch therefore claim that the objection falls to the ground. Francis, the colored man, received only two out of the five colored votes in the district. The remaining nine who voted for him were white men, most of whom declared that they did so for the not very creditable purpose of creating a row in the House of Assembly.

Dick's Case.—A movement is on foot to petition the Governor to commute the punishment of Dick, the Indian sentenced to be hanged on the 30th instant—to imprisonment for life. It is doubtful, notwithstanding the verdict of the jury, if Dick is really guilty. Squamish, (the murdered man) while on his death bed, pointed out another Siwash as the murderer; and had Dick not confessed his connection with the deed voluntarily, it is highly probable that he never would have been suspected. Two juries were impeached by the Coroner before a verdict against the condemned was obtained, the presumption of his innocence being considered very strong by most of the jurors; and besides, the killing arose out of a drunken brawl, and no malice aforethought on the part of the perpetrator was shown on the occasion of the trial. We think Dick is fully entitled to a commutation, and hope that the case will be laid before His Excellency without delay.

To LEASE.—The Victoria Theatre is offered to lease at a moderate rent by Mr. Cochrane. To an enterprising man with a small capital this investment would prove one of the most remunerative in the Colony. There are hundreds of persons here who will liberally patronize the institution if stocked with a small but efficient company of ladies and gentlemen; but no such cultus affairs as the performances lately given there will ever succeed in this place.

CONFIRMATION.—The ordinance of Confirmation was held yesterday afternoon at St. John's Church, when thirteen candidates presented themselves before the Bishop of the Diocese, who delivered, both before and after the ceremony, a discourse suited to the occasion. There were present, the Dean of British Columbia, Rev. Mr. Wood, Rev. G. Dundas, and several other clergymen. There was also a very large congregation, who listened with marked attention throughout the service.

DEPARTURE OF THE "PACIFIC."—The steamship Pacific went to sea yesterday morning, from Esquimalt, at 9 o'clock. She had on board nearly 200 miners and others as passengers from this place, and 120 U. S. soldiers from the Sound. Wells, Fargo & Co. shipped \$205,998 in gold dust. The total shipment, including the amounts in private hands, will reach \$100,000!!!

ACCIDENT AT PORT MADISON.—While a spar was being placed in the ship Northern Eagle at Port Madison, on Tuesday last, the leg of one of the workmen was smashed to splinters by the giving way of the hoisting apparatus, which allowed the spar to fall upon him. He was taken to Port Townsend for medical attendance.

THE CHINESE SPORTS.—The twenty-five Chinamen, arrested by the Police on Wednesday night last, were fined yesterday in the Police Court—the two bankers, £20 each, and the rest, 40s. each, and all ordered to enter into their own recognizances to be of good behavior for three months.

DEPORTATIONS.—Since the U. S. force on San Juan has been ordered East the deportations have been very numerous, and a number of the soldiers may be seen about Victoria.

AUCTION.—At 1 o'clock this morning, at a sale room, Mr. McCrea will sell by auction an invoice of English Hardware, etc.; also groceries and provisions.

Mr. Alex. Clink, on Saturday, furnished new bondsmen and was again discharged from custody.

FOR NANAIMO.—The steamer Emily Harris will leave for Nanaimo to-morrow morning, at 8 o'clock.

ASSAULTING A SQUAW.—John McDonald, with \$204 50 in his purse, was arrested on this charge last evening.

THE WEATHER.—Some wretch, who evidently has no respect for members of the editorial profession, having walked off with a borrowed thermometer, which has been in our possession for a year past, we are unable to place on record the exact temperature of the atmosphere on Saturday night and yesterday; but the numerous "blue-noses" we encountered yesterday morning, warrants us in saying that we then had the coldest weather of the season. Sufficient snow fell at 9 o'clock yesterday to whiten the ground, and after that feat had been accomplished—no doubt to the entire satisfaction of the person who controls such matters—the wind suddenly changed, and we were blessed with a most delightful drizzle of rain for the remainder of the day. Blazing fires were considered indispensable to comfort in doors, and the town, taking the cue from the weather, went to bed early last night, so that by half-past ten o'clock but few people, save belated bacchanals and policemen, were astir.

THE LATEST ABOUT CHARLESTON.—We were yesterday shown a private letter, received by a gentleman of this city from his brother in San Francisco, which states that a telegram was received in that city, just previous to the sailing of the steamship Pacific, confirming the report of the bombardment of Charleston, S. C., by the U. S. fleet; "That 5000 lives had been lost, and that the city was in flames." The letter was written on board of the Pacific just before she cast off from the wharf, and was handed to the purser by the writer. We have heard so many reports of the capture of Southern cities and great battles, that we place but little faith in this story, which originated, doubtless, in the fruitful imagination of some Eastern telegraph operator. However, true or false, the news by the steamer Enterprise, due to-morrow, will, we hope, tell us more about it.

THE BARK "CLEOPATRA."—G. T. Smith and Samuel Staunton (the first captain and the latter mate of this bark) have been indicted at San Francisco for the crime of burning the vessel on the high seas with intent to defraud certain insurance companies. The bark was burned off the coast of Southern California, on the 1st of July last, the crew escaping in small boats. The Cleopatra will be remembered as loading with coal at Nanaimo last winter, and afterwards lying some time at Laing's shipyard, in this harbor, where she was thoroughly repaired. She was a very old vessel, and sailed under the New Granadian flag. The owner is D. C. Mitchell, ship-chandler, of San Francisco.

FIRE AT TODD'S FARM.—On Saturday evening last two gentlemen of this city, while out riding in the vicinity of Mr. Todd's farm, discovered the residence of that gentleman to be on fire. They immediately dismounted, and after considerable exertion succeeded in quenching the flames, which appear to have originated in a small smoke-house adjoining the main building. The smoke-house was entirely destroyed. No person save an elderly female was on the premises at the time, and but for the fortunate presence of the two gentlemen alluded to, the loss must have been very great.

NOVA SCOTIA GOLD.—We have lately seen a sample of gold quartz from Tangier river, N. S., with a sample of its gold assayed by Dr. Gesner, of this city. The gold, we are told, is 985-1000ths in purity, and worth nearly \$20 per ounce. Quite a number of persons have gone to the gold diggings, and as this province is known to abound in coal, iron and other valuable minerals, it has become of still greater importance by the discovery of the precious metal.—*New York Scientific American.*

THE ST. JOHN, N. B., Colonial Empire says: It is now a settled conviction, that Nova Scotia is one rich gold field, and that before six months she will have an increase to her population of 100,000 souls.

The Washington Metropolitan announces the following curious facts:

The new Russian Minister to the United States is called Soumousoff (saw my nose off). An attaché of the same legation at Washington, Bloumanossoff (blew my nose off), besides which we have Colonel Kutmanossoff (cut my nose off), of the Imperial Guard; Marshal Polmanossoff (pull my nose off), General Nozebogon (nose be gone), and many others.

WHY PRINCE DE JOINVILLE IS IN THE UNITED STATES.—The Prince de Joinville is in America, according to one account, to place his child there for education; according to Paris gossip, hunting Prince Napoleon, whom he long since threatened to call to account for the insults heaped in his last great speech upon the House of Orleans.—*London Spectator.*

"India, my boy," said an Irishman to a friend on his arrival at Calcutta, "It's just the finest climate under the sun; but a lot of young fellows come out here, and they die and they die and they die, and they die; and then they write home to their friends a pack of lies, and say it's the climate as has killed 'em."

In China, now, you can buy a dozen Chinese babies of their mothers for \$2. Dirt cheap!

Dissolution of Copartnership.

THE COPARTNERSHIP HERETO-fore existing under the firm of Williams & Marks, has been this day dissolved by mutual consent. All outstanding debts will be collected by George Williams, and all debts of the firm paid by him.

GEO. WILLIAMS, J. MARKS. no12m

Victoria, Nov. 18th, 1861.

ADDRESS To the Miners of British Columbia now in Victoria.

Miners of British Columbia: The Committee of the Royal Hospital earnestly ask you to remember your suffering fellow-men now inmates of that institution, who, having embarked on the same adventure for wealth as yourselves, have not been so successful.

The Institution on whose behalf we plead, is the first and as yet the only Public Hospital in the two colonies of British Columbia and Vancouver Island. It is the only asylum where the indigent sick, without distinction of creed or nationality, have found or can find relief.

During the three years of its existence, the Hospital has extended aid to a large number of miners from British Columbia, more than one-third of the whole number admitted having been of this class. Whenever the steamer has brought down from the river a man destitute and in need of Hospital care, its benefits have been freely imparted to him. There are still within its walls six British Columbians, some of whom are likely to remain there for a considerable time.

The Hospital is in debt, and unless materially aided, must soon contract the field of its exertions. The Committee earnestly hope that it may still be enabled to preserve its character of never closing its doors against those who truly need its help, whoever they may be, or wherever they may come from. The successful miners now in Victoria will, they confidently believe, sympathize with them in this desire, and aid them in its fulfilment. While enjoying the wealth they have obtained, they will not forget that by the most sacred laws, a portion belongs to the sick and the afflicted. Miners! it is by a benevolent use of your gains that you can prove your lot preferable to that of your less fortunate brethren who are languishing in the Hospital. Riches make to themselves wings and fly away. It is only what we heartily give that we can truly call our own. It is lent to Him who, although he afflicts, does not forget the sufferer, and who will repay with interest what is invested in deeds of love.

Donations will be thankfully received by the Bank of British North America, British Colonist Office, Wells, Fargo & Co., Press Office, McDonald & Co., Hibben & Carwell.

On behalf of the Committee, EDWARD CRIDGE, Hon. Sec.

THEATRE TO LEASE.

THE VICTORIA THEATRE,

Situated on

Government Street,

VICTORIA, VANCOUVER ISLAND,

is offered to Lease to responsible parties

AT A MODERATE RENT.

THE BUILDING IS CAPABLE OF seating between 700 and 800 persons, is lathed and plastered throughout, well ventilated, contains a commodious dress-circle, parquet and pit, two private boxes on either side of the stage, and two at the rear of the pit. The stage is well furnished with scenery appropriate for any style of performance; has commodious dressing-rooms, and an entrance in the rear. At the back of the stage is a powerful force-pump and a full supply of hose connected with a large cistern, from which water may be ejected to any portion of the building.

Victoria offers peculiar advantages for the establishment of a permanent theatre to an experienced person with a small capital. No outlay of funds will be required beyond the current expenses, the building being well supplied with every article necessary for the successful prosecution of the business.

For further particulars, apply to

JOHN J. COCHRANE, Real Estate Agent.

no15 1/2 Government street, Victoria, V. I.

MISCELLANEOUS.

J. S. DRUMMOND,

Now offers to the public

MAGEE'S

COAL AND GAS BURNERS!

For warming and ventilating

PARLORS, OFFICES,

HALLS AND STORES,

Which for Economy, Purity of Air, and Ease of Management, has no equal. They can be regulated so as to give

Any Amount of Heat Required,

And unlike all other Coal Burners, Ventilate the Apartments quite as thoroughly as a wood fire or open Franklin,

Producing a Current of Air,

at once moist, pure and agreeable, and as none of the air which comes in contact with the fire put is used for respiration, the tendency to produce headache, so much complained of by those using Stoves and Furnaces is entirely obviated.

The Fire may be continued from one to four days without replenishing.

These Stoves are beautiful in design, and finished in the most perfect manner. They are equally appropriate and have given universal satisfaction to all who have adopted them.

FOR OFFICES AND STORES AS WELL AS THE PARLOR.

The inventor challenges the world to produce an article by which so much pure warm air can be generated from so small an amount of fuel, requiring but about fifteen pounds of coal to warm an ordinary sized parlor for twenty-four hours, without replenishing, and then leaving fire enough to rekindle without the use of charcoal.

The coal is all used and no cinders made, consequently sifting coal is dispensed with. When this stove is properly managed,

The Fire may be continued through

the entire season,

Without once going out. Added to these qualifications the purchaser may reasonably expect to save from thirty to fifty per cent. in full of expense.

THESE STOVES ARE GUARANTEED.

I have also received a full assortment of

Fancy Heating Stoves,

FOR WOOD OR COAL,

And the best improvement on

COOKING STOVES.

Fancy Lacquered American Grates,

with bricks and all the fixings complete.

English Grates,

Lifting Pumps and Force Pumps,

Tinware, Fire-Irons, Wire, Fenders, etc., etc.,

All of which I offer at Reduced Prices

J. S. DRUMMOND,

Stove Dealer, Yates street,

next door to Bayley's Red House Grocery.
